1. **MEMORIAL LOOP (2.5 miles) MODERATE**— Easily accessed from many different locations, this trail travels along the eastern shore of Whitewater Lake through a variety of forest types.
 2. **CATTAIL ALLEY TRAIL (1 mile) MODERATE**— Accesses the family campground to the beach area of Whitewater Lake. The northwest end of the trail is marked by acres of cattails, providing great habitat for many species of waterfowl and other birds.
 3. **RED SPRINGS LOOP (1.2 miles) MODERATE**— This loop trail can be accessed from the spillway parking lot or the Nature Preserve parking lot. The majority of the trail meanders through the Hornbeam Nature Preserve and past large seep springs that gush from the hillsides, leaving its minerals and iron deposits to cast a rusty color over the surface water. This is a wonderful trail for spring wildflowers.
 4. **LAKE SHORE TRAIL (2.7 miles) MODERATE**— (.5 mile) Short Loop—The short loop and longest trail starts and ends at the Hornbeam Nature Preserve parking lot. It traverses through hills and valleys of beautiful hardwoods along the western shore of Whitewater Lake. The half-mile short loop is at the beginning—watch for wooden signs. The long trail turns around at the wooden steps and observation deck.
 5. **VETERANS VISTALOOP (2 miles) MODERATE**— This trail offers a spectacular view of Brookville Lake, winding through fields and forests in the Silver Creek and family-cabin areas.
- DESCRIPTION OF BRIDLE TRAILS (9 miles)**— The large loop trail that traverses around the edge of the property can be accessed from the Day Horsemen's Area or the Horsemen's Campground. The saddle barn trail is exclusively for saddle barn patrons.

DESCRIPTION OF TRAILS

WHITewater MEMORIAL STATE PARK

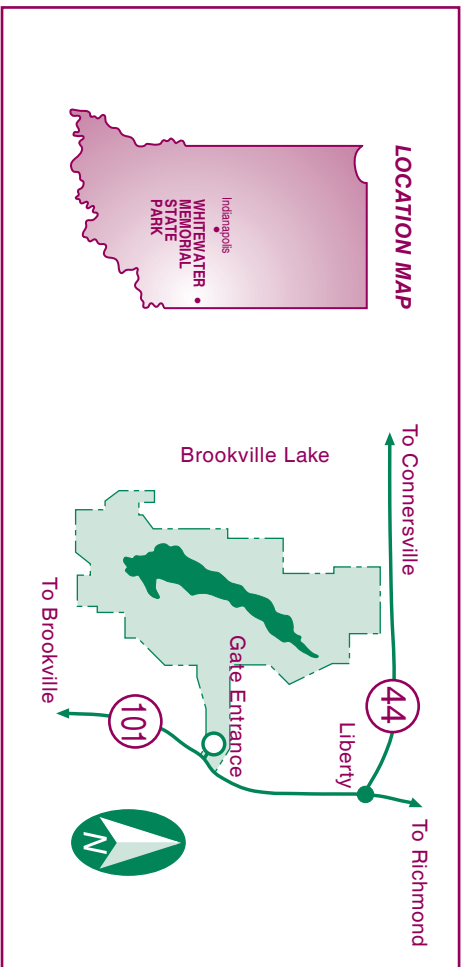

Whitewater Memorial State Park was established in 1949 as a living memorial to the men and women who served in World War II. It is the result of a community effort in which Fayette, Franklin, Union and Wayne counties joined together to acquire the initial acreage, which includes wooded rolling hills, steep ridges and ravines, in addition to level, open fields and a man-made lake.

Hornbeam Nature Preserve, within the park, includes an unusual number of hornbeam and hop hornbeam trees. In spring, the forest is covered with a dense carpet of wildflowers.
