

**DEPARTMENTAL NOTICE #2
OCTOBER 2017**

SUBJECT: GASOLINE USE TAX RATE

REFERENCE: IC 6-2.5-3.5-15

DISCLAIMER: This document is not a “statement” required to be published in the Indiana Register under IC 4-22-7-7. However, under IC 6-2.5-3.5-15, the department is required to publish the gasoline use tax rate on the department’s Internet website in a Departmental Notice. The purpose of this notice is to inform each refiner, terminal operator, and qualified distributor known to the department to be required to collect gasoline use tax the rate at which the gasoline use tax is to be charged for the month stated in this notice. The gasoline use tax rate is calculated monthly by the department and is effective for the month stated in this notice.

STATUTORY CALCULATION OF GASOLINE USE TAX RATE

The rate is defined by IC 6-2.5-3.5-15 as the product of:

- 1) The statewide average retail price per gallon of gasoline (excluding the Indiana gasoline tax, the federal gasoline tax, the Indiana gasoline use tax, and the Indiana gross retail tax (if any)); multiplied by
- 2) seven percent (7%); rounded to
- 3) The nearest one-tenth of one cent (\$0.001)

Using the retail price of gasoline for the period from August 16, 2017, to September 15, 2017 (as required by IC 6-2.5-3.5-15(b)(1)), the department has determined the statewide average retail price per gallon of gasoline to be one dollar ninety-one and six-tenths cents (\$1.916) for the period.

The daily gasoline price data used to derive the average daily price for gasoline in Indiana was provided by Oil Price Information Service (OPIS). Any data provided by OPIS is copyrighted by OPIS and may not be reproduced or disseminated in any manner except with the explicit written consent of OPIS. The information provided on the Indiana Department of Revenue's website and publication is being provided for the sole purpose of reporting, computing, and remitting the Indiana gasoline use tax imposed by IC 6-2.5-3.5 and may not be used for any other commercial purpose.

Based on the average price of gasoline for the period in question, the gasoline use tax rate is computed as follows:

Statewide average retail price per gallon:	1.916
Multiplied by the state retail tax:	<u>x .07</u>
	0.13412

Rounded to the nearest one-tenth of one cent: 0.134

GASOLINE USE TAX RATE

Based on the previous calculations, the gasoline use tax rate for the period from October 1, 2017, to October 31, 2017, is **thirteen and four-tenths cents (\$0.134) per gallon.**

Adam J. Krupp
Commissioner
Indiana Department of State Revenue
