Chairman William Crawford
Select Joint Commission on Medicaid Oversight

Dear Chairman Crawford,

Thank you for taking the time to consider the concerns from southwest Indiana health care facilities.

With this letter, I have included updates from my community. While improvements in Medicaid coverage have been made, there are still outstanding issues that need to be addressed. Prenatal care appears to be one area of concern that deserves additional attention. I hope that you and the committee can review the provided information to gather a good understanding of the issues our health care providers are dealing with.

Sincerely,

Suzanne Crouch
State Representative
