

1979-205-2

SEC. 2. Because an emergency exists, this act takes effect May 10, 1979, and applies to contracts entered into after May 9, 1979.

1979-294-2

SEC. 2. This act does not affect:

- (1) rights or liabilities accrued;
- (2) commitments ordered; or
- (3) proceedings begun;

before September 1, 1979. Those rights, liabilities, proceedings, and commitments are continued as if this act had not been enacted.

1979-307-1

SEC. 1. For the 1979-81 biennium, the following amounts, from the funds listed as follows are hereby appropriated to provide for the construction, reconstruction, rehabilitation, repair, purchase, rental and sale of state properties, the purchase and sale of land, including equipment for such properties, and state grants to municipalities for various projects.

State General Fund	\$140,623,167
State Police Building Fund	
(IC 10-1-6)	2,200,000
Law Enforcement Training Fund	
(IC 5-2-1-13)	528,025

Replace Windows	61,000
Interior Painting	100,000
Perimeter Fencing (Central State)	8,000
Storage Building	50,000
TOTAL	932,020

STREAM POLLUTION CONTROL

GRANTS 15,680,000

The state may make grants, as funds are available, to municipalities to assist them in financing the construction of those portions of water pollution control projects which qualify for federal aid and assistance. The state's contribution toward the construction of water pollution control projects may not exceed ten percent (10%) of the eligible cost of each project. It is the purpose to provide state funds for any portions of such projects as qualify under the federal provisions.

To the extent that funds are available, the water pollution control board, with the approval of the state budget agency and the governor, may authorize additional grants to local communities, on request of those communities, where the actual contract price proves greater than the estimate originally submitted to the board. However, all appropriations to match local funds shall first, on an annual basis, be distributed to all communities in amounts shown on the priority list as annually established by the water pollution control board, and the state's share of these additional grants may not exceed ten percent (10%).

The stream pollution control board, subject to the final approval of the state budget agency and the governor, on recommendation of the state budget committee, may approve grants to municipalities; the municipalities shall use these grants for improving or accomplishing water pollution control projects.

CORRECTIONS

INDIANA STATE PRISON

Preventive Maintenance	475,000
New Gates and Operators (No. 1 and No. 2)	22,000

SEC. 3. The balance of any construction, rehabilitation and repair appropriation made by this act or any previous acts, which has not been allotted or encumbered before the expiration of two (2) bienniums, may be determined to be not available for allotment by the state budget agency. The account for the appropriation may be terminated and the balance of it may revert to the state general fund whenever the original appropriation was made from the state general fund.

1979-307-4

SEC. 4. If a state institution sells land or property, the proceeds from that sale are hereby reappropriated to that institution or agency for the construction or rehabilitation of additional inmate, employee, patient, or student facilities. The proceeds from the sale of surplus lands in the department of natural resources are reappropriated for the acquisition of property in-holdings, and these proceeds are subject to allotment by the state budget agency, with the approval of the governor.

1979-307-6

SEC. 6. The amount of funds expended for any one of the uses, purposes and projects listed in this act may not exceed the amount stated unless the excess expenditure is approved by the state budget agency and the governor.

The state budget agency, with the written consent and approval of the governor, may allocate funds for uses, purposes and projects not listed in this act, only after a showing that the use, purpose or project has resulted from changed conditions not reasonably foreseeable, and is essential and necessary to the best interests of the state.

1979-307-7

SEC. 7. The state budget agency may employ one (1) or more architects or engineers to inspect construction, rehabilitation and repair projects covered by the appropriations in this act or previous acts.
